The Iniquitous Rivals of Wool. The shoddy interest has grown to a proportion which overshadows if it does not overwhelm honest wool dealers. It is asserted on authority 40,000 tons, or 80,000,000 lbs. of shoddy are manufactured each year in the United States. It is known that that amount of woolen rags are used annually in England, and we have the best reasons to believe that as we are not a whit more given to wearing rags than the English people, and as we do not export any "soft rags" but sell only our "hard rags," we turn at least an equal quantity of the better kind into cassimeres and blankets again. The production of wool in the United States in 1870 was about 100,000,000 pounds. The comparasive importance of shoddy may therefore be readily appreciated. The sheep may well be dumb at the consideration, and the shepherd repine at the manner in which he is fleeced.

But shoddy is not all to blame. Mungo must share the discredit. Hitherto, while shoddy has borne vituperation and contumely, its wick-ed partner has escaped without a reproach, because it kept out of sight. Shoddy is the product of "soft" woolen rags, torn by machinery into fiber suitable to be mixed with cotton or wool, and woven into cloth. Mungo is the product of a finer description of rags, from broadcloth and similar goods. Shoddy was invented in Yorkshire, England, in 1813, and upon it, as a foundation, the inconsiderable village of Batley, the home of its discoverer, has grown to be a town of 15,000 inhabitants. The large cities of Leeds, Huddersfield, Bradford, Halifax and Wakefield, surrounding Batley as a centre, have all waxed strong upon shoddy as their chief ailment. It was then known as "ragwool," and had a respectable reputation. It lost its character after its arrival in America, and became thoroughly debased in 1860, at which time it gained the unenviable reputation land, unknown and uncared for, with no imwhich still adheres to it. The demand for pulse and no aid to raise to a nobler life. "Hard army cloths led unscrupulous manufacturers to put as much as 80 per cent. of shoddy into soldiers' clothing, which fell to pieces at the first wear. Its history from that time is sufficiently known. Its friends, however, assert that it has repented in sack-cloth, and is now a worthy article of legitimate business, and that if not more 33 per cent of it enters into the manufacture of woolen goods, they are equal to, or even superior to those made from pure wool. Very few persons, we apprehend, will feel inclined to

> THE CORN CROP.—It appears from returns to the Department of Agriculture that an increase in the corn area of fully 2,000,000 acres is apparent, or six per cent. above the breadth of last year. The percentage of increase is largest in the South. The increase in acres is largest in the West. The returns make the gain in Iowa over 360,000 acres, in Missouri about the same, in Illinois above 200,000 acres, in Indiana fully 200,000 acres, in Kansas about 170,000 acres. Georgia shows almost as large an increase as Iowa and Missouri; Alabama, 180,000 acres; Mississippi, 120,000 acres; Texas, 200,000 acres. The inducement to enlarge the corn area of the cotton States appears to have been less influential in the Mississippi Valley than in the more eastern States, Georgia particularly. The increase in Texas is simply due to the natural expansion of the crop areas from immigration, and is equally noticeable in cotton and other crops. The number of States reporting a decrease in area is small, including only Maine, New Hampshire, Vermont, Florida, Louisiana, Tennessee, West Virginia, Kentucky and California. In Northern New England a late unfavorable spring interfered with planting, and in Louisiana the area is less by reason of the overflow.

Hard Times.

"It's mighty hard times, I tell you!" We took a short walk vesterday and this was the salutation we heard one man give another. The speaker was a tall man in his shirt sleeves and a slouched hat, and he stood holding in his strong hand a rope attached to the horns of a little companion, looked as if the rope were superfluous, for there was nothing more foreign to their thoughts or spirits than running away. The little shambling wagon to which the attenuated cattle were hitched, groaned in its oilless joints under nine sticks of green wood, unsplit because too thin. The wood looked like English hop poles, and the man who vowed the times were hard could have carried the load easily. In the back part of the wagon, secured by a strap, was a glazed earthern jug, with a corn cob stopper, supplemented by a piece of red rag. We did not wait to hear more of the stale platifude but went on; the sight of such teams, such loads, such men and such statements have become too common to excite com-

A Monstrous Rhinoceros.

Several days ago the largest black rhinoceros ever exhibited in the world was added to the collection of wild beasts in Barnum's Hipmountain of flesh weighs 9,500 pounds. This is 2,200 pounds more than the largest rhinoceros in the Zoological Gardens in London. His body is encased in a heavy, leather-like hide, which overlaps at the joints, making folds nearly two inches thick. His legs are short and stumpy, and his tail resembles the black snakes used by teamsters in the Western country. His head is covered with the same thick hide which envelopes his body, and upon his forehead and about his eyes and ears it is piled up like plates. The animal had a large, sharp horn, which projected from his snout just above his nostrils. but the monster's head was chained down, and get away, this horn was sawed off close to his teeth. snout. A cage upon wheels was made on purpose for the rhinoceros' accommodation. It is heavily barred with steel upon the sides and front. His head is chained to a stout beam, and a heavy oak plank prevents his backing. There is barely room for the rhinoceros to stand and lie in. If he was given more space his immense strength would enable him to break from all restraint, and the havoc he would make if loose can be imagined but not estimated. His immense weight may be realized from the fact that when the eage containing him was drawn into the Hippodrome the wheels crushed through the concrete flooring in many places to the depth of two or three

Nearly every nation in the world is either a east. borrower or a lender; and the startling declaration is made by the London Daily Telegraph that the world, "regarded in the mass, is living beyond its means." During the ten years ending with 1872, while England reduced her debt \$175,000,000, and Holland hers by \$30,-000,000, there was an increase—in several cases exceedingly large-in the debts of the United States, France, Italy, Spain, Russia, Turkey, Austro-Hungary, Egypt, Portugal, and Peru, to say nothing of other nations which are comparatively small debtors. France has gone deepest, increasing her liabilities by about \$2,500,-000,000 in the last decade. The editor of "Penn on the Funds," a well known book of reference in England, estimates the total increase in the aggregate of national debts from the year 1862 to 1872, at very nearly \$10,000,000,000, while an additional sum of \$5,000,000,000 has been raised for joint-stock companies. Many years before the brilliant triumphs of the war had lifted General Jackson high above all competitors into the Presidential chair as the Chief Executive of the nation, it was his custom to have some one to take his place in the dirty street broils which might come up.

At the time to which I refer, one Ferguson was the man,-a regular knock-down-drag-out sort of fellow, dreaded by all who were ever so unfortunate as to come in contact with him. An uncle of Col. Rutherford, by the same

They eat the tops entirely off the beets, not even leaving the stems of the leaves; but after these are all eaten they descend to the beet itself and devour it. It is alleged that a new Russian law, which is shortly to take effect, compelling the Mennonites to conform to the established church of Russia, is the immediate and main cause of their migration. This, however, is not the only cause. Military service, it appears, is to be enforced upon them as upon other subjects of the Czar. In Holland, where they were originally organized, they are said to have been subject to repeated persecutions. They are Baptists in faith, and successors of the ancient Waldenses. We see it stated that their objection to military service, is based perhaps not so much on abstract principle as on political and transmuted rights, the new law being an abrogation of the charter they obtained at the close of the eighteenth century from the Emperor Paul. English history for religious toleration, was also their friend and protector. They have also produced some of the nies of Mennonites settled as early as 1683 in Pennsylvania. In 1727 they published in Philadelphia their "Confession of Faith," translated from the Dutch. That confession dates, it is said, from Dort, in 1632. They partake of the doctrinal peculiarities both of the Baptists and the Quakers, showing the antipathy to infant baptism with the former, and to oaths, war and capital punishment with the latter. Being industrious and honest people, the new comers will no doubt be desirable settlers, even if they are not likely to become citizens, which would render them liable to military service.

The Late Disastrous Flood at Pittsburg.

In addition to the accounts already published of the terrible disaster at Pittsburg, Pa., last week, equalling if not surpassing the late destruction at Mill River, the following particulars of the affair will be found of interest:

Accounts of the terrible flood which has delburg as they come in, show that the disaster was far greater than was at first supposed It is now thought that the loss of life will reach fully two hundred persons, and the loss of property be proportionately large.

A gentleman who watched the storm from a point a few miles down the river where there was little rain, says that by the fitful flashes of lightning he could see a huge, inky-black, funnelshaped cloud, which overhung the city, the narrow end being lowest, while the dark part gave vent to almost continuous flashes of lightning. It is almost impossible for any one not familiar with the geography of the locality to form an idea of this disaster, or how it could possibly have occurred. Died at Palmyra, in Caldwell County, the resi dence of her parents, on July 29th. 1874, CAROLINI LOUISA, infant daughter of Samuel L. and Mary S Patterson, aged six months and ten days.

The friends of the bereaved parents after reading the above sad announcement, will recall to mind the night of the 19th of January last. Two hours after this little one entered upon the threshold of life, her noble paternal grandfather, under the same roof, quietly breathed his last in the midst of sorrow ing friends and relatives. Associated as these two are, it would seem wrong to murmur at the inexora-ble flat. In a brighter and better world the disembodied spirit of honored age welcomes the pure soul of guileless childhood and bears it to the throne of God. It is best.

LAST CHANCE

AN EASY FORTUNE!

A postponement of the Fifth Concert of the Pub-A postponement of the Fifth Concert of the Full-lie Library of Kentucky has been so generally anti-cipated, and is so manifestly for the interest of all concerned, that it must meet the approval of all.— The day is now absolutely fixed, and there will be no variation from the programme now announced. A sufficient number of tickets had been sold to have enabled us to have had a large drawing on the 31st July, but a short postponement was considered pre-ferable to a partial drawing. Let it be borne in mind that

Last winter the children of Mr. Phillips, of Waughtown, attended the district-school without missing a day during the whole session and in consequence improved very rapidly. Mr. Tucker, the teacher, says it is a pleasure to teach children who take such an interest in the work before them. Why do not all the parents emulate the example of Mr. Phillips in sending their children regularly and thus secure all the advantages offered?

WOODLAND CEMETERY .- This beautiful, but much neglected spot, is being renovated and will soon be enclosed with a new fence. Mr. Wm. Barrow superintends the work, giving the whole grounds a careful and thorough cleaning, presenting a neat and attractive appearance. With continued care this cemetery can be made one of the finest grounds of the kind in the State. Mr. Barrow has no superior * a superintendent of such and similar works.

THE NEW SETTLEMENT .- Several lots of woodland with a mile of Salem, have been recently surveyed and sold on both sides of the Salisbury and Leangton roads, south of this place. The lots are elevated and healthy. The following persons have purchased lots,

ling on the "Vineyard tract," and much improved the grounds.

Mr. Lewis Hine will erect a dwelling on th tract adjoining the above, These lands lie on the West side of the Salisbury road. Mr. J. M. Wimmer has cleared and fenced

the land lying between above two roads. Mr. Jesse Brown has purchased a lot on the east side of the old Lexington road. Mr. Jonas Shore has purchased several acres

adjoining the above and will improve it. Mr. Wesly Petree, also owns several acres in this new settlement.

Mr. J. G. Sides has put up a dwelling for Mr. Isaac Hauser in the same neighborhood. If building continues in this direction, there will soon be quite a village south of Salem. All the land around town is being rapidly

THE GHOST at Lewis Shutt's house has departed after cutting up a few antics by way of laying its cold, but invisible hands, on the faces of Mrs. Shutt and daughter, pulling at the bed clothes, rocking on the chairs, and patting its feet on the floor. Our faith in the whole matter is so weak that we chronicle it only as one of those peculiar infatuations which sometimes possess the people, and is by no means confined to the rural districts. From hints we have received we cannot help believing that there is some trickery at the bottom of the whole matter.

Mr. Vogler, the very efficient Secretary and Treasurer of the Board of Trustees of Salem Congregation, has executed a very neat and accurate plot of the towns of Salem and Winston, with adjacent lands and lots sold and unsold, giving a birds-eye view of the whole tract of land originally belonging to the town of Salem. A COLORED HERO. On last Wednesday evening, as Viney, the wife of Ben Zevely, accompanied by her two little boys, aged 4 and 7 years, was crossing the foot bridge over the creek on their way home from Happy Hill, the youngest of the boys went into the water, which was somewhat swollen by the recent heavy rains, and waded in over of his depth. The mother screamed for help, while the older boy sprang into the water to help his drowning brother, and succeeded in seizing and holding him above water until assistance arrived.

OUR PUBLIC SCHOOLS will probably commence in September or October, and we hope our country friends will encourage the teachers and committee-men by sending their children regularly.

Last winter the children of Mr. Phillips, of Waughtown, attended the district-school without missing a day during the whole session and in consequence improved very rapidly. Mr. Tucker, the teacher, says it is a pleasure to teach children who take such an interest in the work before them. Why do not all the parents emulate the example of Mr. Phillips in sending their children regularly and thus secure all the advantages offered?

THE NEW SETTLEMENT. - Several lots of woodland within a mile of Salem, have been recently surveyed and sold on both sides of the Salisbury and Lexington roads, south of this place. The lots are elevated and healthy. The following persons have purchased lots,

proved the grounds. Mr. Lewis Hine will erect a dwelling on

tract adjoining the above, These lands lie on the West side of the Salisbury road. Mr. J. M. Wimmer has cleared and fenced the land lying between above two roads.

Mr. Jesse Brown has purchased a lot on the east side of the old Lexington road. Mr. Jonas Shore has purchased several acres

adjoining the above and will improve it. Mr. Wesly Petree, also owns several acres in this new settlement.

Mr. J. G. Sides has put up a dwelling for Mr. Isaac Hauser in the same neighborhood. If building continues in this direction, there

will soon be quite a village south of Salem. All the land around town is being rapidly

A COLORED HERO.3-On last Wednesday evening, as Viney, the wife of Ben Zevely, accompanied by her two little boys, aged 4 and 7 years, was crossing the foot bridge over the creek on their way home from Happy Hill, the youngest of the boys went into the water, which was somewhat swollen by the recent heavy rains, and waded in over of his depth. The mother screamed for help, while the older boy sprang into the water to help his drowning brother, and succeeded in seizing and holding him above water until assistance arrived.

TAX GATHERINGS .- The first round of Sheriff Hill was completed at Winston on yesterday.

WEST SALEM .- Several lots in West Salem will shortly be improved. The situation of these lots for building purposes is unsurpassed and the prices moderate. Here is a chance for mechanics and others to secure permanent homes for themselves. Do not let the opportunity slip.

Iron in the Blood

MAKES THE WEAK STRONG,

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "athousand ills," simply by Toning up, Invigorating and Vitalizing the System. The en-riched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secre-tions, and leaving nothing for

disease to feed upon.

This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhea, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all discases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are vermanent, infution, but are permanent, infu-sing strength, vigor, and new life into all parts of the system, and building up an Iron Con-

stitution. Thousands have been changed by the use of this remedy, from weak, sickly, suffering crea-tures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BIT-TERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs,

in Bilious Diseases. If men will enjoy good health, let them use VINEGAR BITTERS as a medicine, and avoid the use of alcoholic stimulants

in every form. No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair. Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that

ever sustained the sinking system. Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Walker's VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive

organs. Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofala, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc., etc. In these, as in all other constitutional Diseases, Walker's Vinegar Bitters have shown their great carative powers in the most obstinate and intractable cases. For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent

and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood. Mechanical Diseases. - Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard

against this, take a dose of WALKER'S VIN-EGAR BITTERS occasionally. For Skin Diseases, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbaneles, Ringworms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of

these Bitters. Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelminities, will free the system from worms

like these Bitters. For Female Complaints, in young or old, married or single, at the dawn of wom-anhood or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Jaundice. - In all cases of jaundice, rest assured that your liver is not doing its work. The only sensible treatment is to promote the secretion of the bile and favor its removal. For this purpose use VINEGAR BIT-

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

HEALTH! BEAUTY!! STRONG AND PURE RICH BLOOD—INCREASE OF FLESH AND WEIGHT—CLEAR SKIN AND BEAUTI-FUL COMPLEXION SECURED TO ALL.

DR. RADWAY'S Sarsaparillian Resolvent

THE CREAT BLOOD PURIFIER.

HAS MADE THE MOST ASTONISHING CURES: SO QUICK, SO RAPID ARE THE CHANGES THE BODY UNDERGOES, UNDER THE INFLUENCE OF THIS TRULY WONDERFUL MEDICINE, THAT Every Day an Increase in Flesh and Weight is Seen and Felt.

Every drop of the SARSAPARILLIAN RESOLVENT communicates through the Blood, Sweat, Urine, and other Fluids and juices of the system the vigor of life, for it repairs the wastes of the body with new and sound material. Scrofula, Syphilis, Consumption, Glandular disasse, Ulcers in the throat, Mouth, Tumors, Nodes in the Glands and other parts of the system, Sore Eyes, Strumorous discharges from the Ears, and the worst forms of Skin disesses, Eruptions, Ferer Sores, Scald Mead, Ring Worm, Salt Rheum, Erysipolas, Acne, Black Spots, Worms in the Flesh, Temors Cancers in the Womb, and all weakening and painful discharges. Night Sweats, Loss of Sperm and all wastes of the life principle, are within the curative range of this wonder of Modern Chemistry, and a few days' use will prove to any person using it for either of these forms of disease its potent power to cure them. person using it for either of these forms of disease its potent power to cure them.

If the patient, daily becoming reduced by the wastes and decomposition that is continually progressing, succeeds in arresting these wastes, and repairs the same with new material made from healthy blood—and this the SARSAPARILLIAN will and does secure—a cure is certain; for when once this remedy commences its work of purification, and succeeds in diminishing the loss of wastes, its repairs will be rapid, and every day the patient will feel himself growing better and stronger, the food digesting better, appetite improving, and flesh and weight increasing.

Not only does the Sansaparillian Resolvent excel all known remedial agents in the cure of Chronic Seroficious Constitutional, and Skin diseases, but it is the only positive cure for

Kidney and Bladder Complaints, Urinary and Womb diseases, Gravel, Diabetes, Dropsy, Stoppage of Water, Incontinence of Line, Bright's Disease, Albuminuria, and in all cases weets there are brick dust deposits, or the water is thick cloudy, roated with substain egg, or threads the writes silk, or there is a morbid, dark, billous appearance, and white beneathed deposits, and when there is a pricking, burning senset on when passing water, and pain in the small or the Back and along the Loins.
